Rev. P. A. Cave will leave this week to attend the Christian Church Assembly at Penn Grove Campground near Mt. Olivet.

Between twenty-five and thirty barns have been burned within a radius of forty miles of Glasgow during the past four months. The motive for the outrages is unknown.

Sam Linck, a Lexington barber, who was fined \$50 and costs at Lexington several months ago for cruelly beating his young wife, was again arrested Saturday for the same offense. The woman is small and frail and is in a delicate condition; in spite of this her brutal husband compelled her to work for \$1.50 a week and even forced her to give him the money to spend for drink. Linck is evidently the missing link. He is now in jail where he should be kept. The whipping post is the punishment to be meted out to such brutes.

YESTERDAY, so we are credibly informed, a certain white man of Maysville served notice on every saloon-keeper in the city and notified them not to sell or give his wife any more intoxicating liquor under penalty of prosecution.

SAN FRANCISCO has caused all the trouble between the United States and Japan. If war ensues, the earthquake city will have some things that will make her sit up and take notice. California and the Pacific will be the theater of action.

SPEAKING OF JULIA WARD HOWE, The Brooklyn Eagle asserts that President Roosevelt is now the "Battle Him of the Republic." But for the matter of sex, Mrs. CARRIE NATION doubtless feels that it might have Ben Hur.—Richmond Times-Dispatch.

THE Government report on the condition of the cotton crop shows the total area planted and to be planted in the United States to be 32,000,000 acres, or about the same as last year; and the average condition 70.5%, as compared with 84.6% in 1906 and 77.2% in 1905.

PEOPLE have got to die in some manner, and it is conservative to say that at least 100,000 Americans have practically killed themselves celebrating the "glorious Fourth" since the day was "canonized" by the Declaration of Independence in 1776. The figures indicate that your Uncle Samuel is not following "the simple life."

JOHN D. ROCKEFELLER has demonstrated that he is an expert in other things besides golf.

In reporting rainstorms we are always particular to state that the loss to the crops amounted to thousands of dollars. We ought to also report that the welcome showers are worth millions of dollars to growing things. It's a characteristic trait of human nature to be a born knocker and kicker. Try boosting a few times and quit chewing your pills. It will do you good.

DON'T blame the weather if you lose your temper and flare up like a cheap firecracker. Just remember that nine times out of ten, it's only the inherent meanness in you made to sizzle out and show itself when the temperature reaches 90° in the shade. If the weather remained at 90° all the year round most people would act like whirling, howling dervishes. It pays to keep cool.

RECENT statistics show that the total bonded indebtedness of the 25 larger cities of the country outside of New York is about \$417,000,000—almost one hundred millions less than that of the metropolis. The per capita debt of the citizen of New York is \$145.35; of Boston about \$116; of Cincinnati \$114; while Chicago and San Francisco, owing only \$12 per capita each, make the best showing.

THAT LAW AGAIN.

Success Magazine.

For miles and miles the through passenger train has plodded along in the wake of the slow freight. The travelers grow irksome and even petulant. "Conductor," says one of the boldest of them, "why do you not get that freight to take a siding while we go by it?"

"Under the new Hepburn law," explains the conductor sadly, "we are not allowed to pass anything."

SOMETHING WRONG WITH MAN.

Scientist Points Out How His Life is Much too Short.

What is the matter with man? March Phillips points out that there is this peculiarity in the condition of man, as compared with the other mammals, that his life is shorter now than by analogy it ought to be. In other animals the period of growth is about one-tenth to one-fifteenth of the whole life. The lion, which is full grown at five, lives for 70 or 80 years. The dog, full grown at 18 months, is as old at 15 as a man at 80. Man, living as long as the lion, is not full grown till 20. The same proportion would give man from 320 to 400 years. Thus his physical life is not in this respect the normal life. It is cut exceedingly short, and its brevity points to some primal failure of vigor—to the presence of some nonnatural—that is, some diseased—condition sapping his vitality. Prof. Virchow notes that if we gather together the whole sum of the fossils men hitherto known and put them parallel with those of the present time we decidedly can pronounce there are among living men a much greater number of individuals who show relatively inferior type than among the fossils known of to this time.

RAT AND CRAB IN BATTLE.

Former Found Helpless in the Grasp of the Crustacean.

D. L. Van Culin, a Paducah stationer, is fond of salt water crabs, says the Cincinnati Enquirer. Receiving a consignment from Maine, he took one out to experiment with. They were numb from the ice packing and one placed by the warm stove began to exhibit signs of life. "I will just leave him there and see how long a crab can live out of water," Van Culin explained, as he locked his store for the night. The stationer found no crab when he returned. A thorough search of the ground floor failed to reveal anything, but a peculiar knocking sound from upstairs attracted his attention. On the top step of the stairs he found the trouble. The crab, with his grippers fast in the sides of a fat rat, was clinging to his captive. The rat, nearly dead, struggled feebly for release and little by little wormed his way upstairs with the weight of the crab pulling steadily against him. The rodent had presumably sniffed at the queer-looking intruder and was caught before his nimble legs could carry him out of harm's reach.

A Strange Short Cut.

It will certainly be news to most people, says the London Globe, that New York is a short cut for telegrams between London and Paris and between London and Berlin. However, the fact is vouched for. The messages are received at an agreed address in New York and are immediately passed on for London, Paris or Berlin, as the case may be. The reason for this amazing roundabout to save time is curious. New York time being about six hours behind European time, its wire connections with Europe are almost always unoccupied during the London forenoon, while during the same time European wires are often congested. Via New York, therefore, is a "short cut," but expensive.

Don't Think You Are Old.

A certain amount of social life is absolutely essential to the old as well as to the young. A woman never grows so old that she ceases to enjoy the company of others, and generally the older she grows the more she enjoys it. It is always a pity to see a man fall into a state which he explains by saying: "Oh, we're getting old and don't care for so much variety in our lives," says Woman's Life. In the pure selfishness of his soul he always speaks of "us" and "we" as if it naturally follows that because he is getting antiquated his wife must keep pace with him in his decline. Let him keep in touch with the world, and both he and his wife will be the better and the younger for it.

A Practical Joke.

New water mains were being put down and an immense line of pipes lay end to end in the road. Late in the night a half-drunken tramp rolled a pipe out of the middle of the line, curled himself up in it, and fell asleep, fairly well protected from the blustering wind. But on towards the small hours a couple of students discovered the tramp, and rolled his bed and himself back into place in the great line again. The tramp, awaking in the morning had to crawl through nearly a mile of pipe before he regained his freedom.

Untimely Courtesy.

"Politeness always pays." "I beg to differ with you." "Then you'll have to cite an instance." "I can. Yesterday morning I was driving my touring car down the avenue when I saw that haughty Miss Snippersley on the sidewalk." "Yes?" "I tipped my hat and smiled." "Yes?" "Yes, and when I looked ahead again I found I had bowled over two workmen and was trying to climb a telegraph pole." —Cleveland Plain Dealer.

Joke on Good Man.

A minister, during his discourse one Sabbath morning, said: "In each blade of grass there is a sermon." The following day one of his flock discovered the good man pushing a lawn-mower about his garden and passed to say: "Well, parson, I'm glad to see you engaged in cutting your sermons short." —London Tit-Bits.

WAS THERE IN PLAIN SIGHT.

Injunction Quite Clear to Unsophisticated Girl.

A Camden business man has at his home a recently arrived Irish girl for a servant, says the Philadelphia Ledger. One day last week he was called out of town on business, and a telegram came to the house for him. The girl received the telegram and took it to her mistress, who looked at the address on the wrapper and laid it aside. A little later the servant picked the telegram up, and noticing that it was still unopened went to her mistress and said: "That telegram has not yet been opened; why do you not open it?" "Why should I open it, Molly?" replied the mistress. "It is not for me." "Well, it says on the envelope, 'Ter be opened.'" Molly brought the telegram and her mistress, looking it over, remarked: "I don't see anything about it's to be opened." For answer the servant triumphantly pointed out in one corner of the envelope the following: "Received at Branch Office, No. —, Broadway. Always open."

Narrow Escape.

Mr. Ferguson, two of whose downtown friends had just dined with him, had taken them into the library for a smoke. "I must tell you a good one on my wife," he said. "She's been roasting me because I look at the headlines in the papers once in a while to see if anything important is happening in the Thaw trial. Well, the other afternoon, while the girl was away, she put a pan of biscuits in the oven to bake, and while she was waiting she picked up a paper and began to read the stuff herself. She got so interested in it that she let the biscuits— At this moment Mrs. Ferguson came into the library for a book. "And the joke of it was," continued Mr. Ferguson, without a moment's pause, "that they found the cow next morning in a 40-acre lot." "Ha, ha, ha!" roared the guests, laughing till the tears ran down their cheeks—but not at the story.

A Ninety-Dollar Umbrella.

"On Mme. Bernhardt's last visit to us," said a manager, "she was beguiled one afternoon to a charity bazaar at the St. Regis. She was beautifully dressed in gray, with an umbrella of gray silk, and as she stood at the embroidery booth she laid the umbrella on the counter. Instantly the girl who conducted the booth seized the pretty umbrella, waved it over her head, and cried: 'How much am I bid for Mme. Bernhardt's umbrella? Fifty? Twenty-five? Ten?' And while the actress looked on smiling there ensued a spirited auction that ended in the umbrella's sale to a western brewer for \$90."

No Lack of Water.

Maj. Gillette's philippics against the water wasters fall at times upon deaf ears. An inspector who was visiting West Philadelphia dwellings to discover who were guilty of wasting water found in one house that a water flush was constantly flowing. "How long has that water been running?" he asked the tenant. "How long?" echoed the other in amazement. "Yes," "I don't know." "Don't know?" queried the inspector incredulously. "No, I've been living here four years. It's been running ever since I've been here." A plumber has since received a hurry call to that house.

Placing Stamps Wrongly.

"The only way to stop people from plastering a stamp at any old place upon the envelope, except the right one, is to do as is done in England. There a letter which does not have the stamp in the right position is cast aside and handled only when all other mail is sorted and exchanged." This idea was advanced by a postal clerk. "We often lose considerable time because of these letters," continued the clerk, "for often we have to stop and turn over an envelope to find the stamp. The worst offenders in this respect are not foreigners, but those who have lived here for years."

WINDOWS BEFORE THE DOOR.

Majd's Queer Idea of Providing Ingress for Firemen.

The things people do when they have a fire in the house would make a book full of exceedingly funny reading. The other day there was a fire out on Westminster place, and the maid, as is usual with maids, got very much excited, says the St. Louis Globe-Democrat. After the fire was extinguished she was relating incidents and declared that her first thought was to open all the windows. "I went and threw up every window," she said. "But," remonstrated the lady of the house, "why did you do that?" "Why, to let the firemen in," said Mary. "But couldn't they get in through the door?" asked the lady. "Oh, they never does," said Mary with conviction; "they never waits to go to the door, but jumps in through the windows," and she smiled in thinking of her own presence of mind in remembering the vagaries of firemen.

Royalty Avoids Strong Drink.

Queen Victoria of Spain does not know the taste of alcohol. Her special "tipple" is made from oranges—the fresh fruit squeezed into a glass, which is filled with aerated water. Oranges are her favorite fruit. For years Princess Henry of Battenberg was a teetotaler, but of late she has suffered so much from rheumatism that she has been ordered to take a little whisky which she regards as a penance. Both Princess Christian's daughters, too, are teetotalers. All the children of the prince and princess of Wales are being brought up strict teetotalers, and they know nothing of alcohol. Princess Patricia of Connaught and her married sister also abstain from wine. Another royal teetotaler is the duchess of Argyll, and the two daughters of the princess royal, their highnesses Alexandra and Maud, have never in their lives touched wine.

Slight Misunderstanding.

Talking of German opera, the London Telegraph relates the story of a lady who brought her little son from the country the other day to witness the pantomime at Drury Lane, and took him by mistake to Covent Garden, where there was a matinee of "Lohengrin." "The opening of the first act," we are told, "was voted dull by both mother and son. But hope shone brightly when Lohengrin, drawn by the swan, appeared, and little Johnny in excitement called out, 'Oh, mother, look at Sinbad chasing the duck.'" Small wonder that "devout Wagnerians," who sat near, were "upset."

Terror of the Air.

Wilfred—"Pa, a man who is continually on a ship is called a sea dog, isn't he?" Gunbusta—"That's what they call him, my boy." Wilfred—"Well, if he's a sea dog, then a man who is continually on an airship must be a skyo terrier."—Judge.

MISTAKE WAS THE WIFE'S.

Charge Against Husband Made Without Due Thought.

James McCrea, the new president of the Pennsylvania railroad, said in an interview in Pittsburg, apropos of a false charge against a financial institution: "This charge was more than refuted. The institution came out with flying colors. It reminds me of an incident that happened when I was a roddan in my youth. Working on the Connellsville line, I took a number of meals with a middle-aged farmer and his wife. One day at dinner I noticed that the farmer's wife seemed rather out of sorts, and after dinner I wasn't surprised to hear her say: 'Josiah Simmons, to think that you have forgotten that this is the anniversary of our wedding!' Old Josh flushed guiltily, looking up from his paper with a start. Then he frowned and said in a surprised voice: 'Why, mother, you must be mistaken. We were married on the eighth.' The wife bit her lip. 'Oh, excuse me,' she said. 'I was thinking of my first marriage anniversary.'"

Master Vincent Ellis has been visiting his relatives, Mr. and Mrs. D. L. Williams of Portsmouth the past ten days.

The Mite Society of the Third Street M. E. Church will meet with Mrs. Bishop Wednesday afternoon at 3 o'clock.

Miss Beesie Lee, accompanied by her nieces, Miss Lula Dersch and Miss Ethelene Dearing, have returned home from a pleasant visit with relatives in Fleming county.

Last Sunday night two young ladies and gentle from Maysville were in the storm near Lewisburg and had a fearful experience. At the height of the electrical display, an immense ball of fire at least 20 feet in diameter fell from the heavens onto the pike directly in front of their horse. They declare that the mass of electricity was as large as a house. It exploded with a loud noise sizzling in every direction. This is no joke.

During the storm of last Sunday night, the wind and rain did considerable damage to the interior furnishings of the Central Presbyterian Church. There was such a down-pour of water that, from some causes, the carpet was badly damaged, the gas was extinguished, and the audience present was quite panic-stricken for a time. Rev. P. A. Cave of the Christian Church was about to begin special services, but could not do so, and, after a hymn and prayer, the congregation hastened home through the storm as best it could.

BURNED TO GROUND

THREE PRESIDENTS

Died on Independence Day—Other Necrology of Our Presidents

Of the twenty-six men who have been President of the United States three have died on the Fourth of July.

And another peculiar thing is that John Adams, aged 90, our second President, and Thomas Jefferson, aged 83, the third, both died on the same day, July 4th, 1826, the former at Quincy, Mass., and the latter at his famous home, Monticello, Va. James Monroe completes the trio of Chief Executives who were patriotic even in the case of their death. He died July 4th, 1831, at the age of 73 in New York City. In all seven of the twenty-six Presidents who have ruled our destiny died during July. The month with the next largest Presidential mortality lists is June, which has four.

"LID" SUPPRESSES

But Cannot Save—Dr. Irwin Says That Reformation and Character Must Begin From Within

Louisville Herald.

"You may put the 'lid' on to suppress things, but you can't save men's souls that way. Reformation must come from within, not from without. Law means suppression, negation; salvation means the application of the higher law of the gospel, which develops character and gives real liberty."

These words were spoken by the Rev. Dr. W. Francis Irwin, Pastor of the Fourth Avenue Presbyterian Church, yesterday morning in a sermon on "The Law of Liberty." His text was, "So speak and so act as men who shall be judged by the law of liberty."

Dr. Irwin said that liberty under the law of the gospel is the highest type of freedom, and that the gospel is the highest expression of law. Though he declared that the law in itself cannot save, yet he said, if the restraints which are put upon men by it were to be removed, society would revert to savagery.

Men will be judged, he said, without reference to these restraints, but just as they are.

The Cincinnati company agrees to advance 50% of the appraised value of this tobacco up to the amount of \$100,000.

SHORT TALKS BY L. T. COOPER.

SLEEPLESSNESS.

MRS. GEO. WEISEL.

Do you know what makes people lay awake and toss and roll about at night? Doctors tell you there are various causes. I tell you it's stomach trouble. I know it because I've seen thousands of cases and watched them.

A stomach that is over-crowded with undigested, decaying food matter effects every organ of the human body. It causes nervousness, headaches, constipation, impure blood, poor circulation and dulls the mind. It makes one restless and uneasy. When your stomach is working right you feel right. You sleep well and you eat well.

People come to me day after day and tell me they can't rest after eating. They have a dull headache. At night they go to bed simply because they are exhausted. They catch a few cat naps and get up in the morning feeling as worn out as they did before.

I have recommended Cooper's New Discovery, a regular diet, regular habits and invariably these same people come to me afterwards and tell me they feel much better because they eat well and sleep well. Here with is a sample.

A letter I received from Mrs. Geo. Weisel, 1121 Providence Road, Scranton, Pa., says:

"I suffered for three years from stomach trouble, inactive liver and rheumatism. Everything I ate disagreed with me and I lay awake night after night. I had no pleasure in life and could scarcely do my work about the house. I heard from a neighbor of Cooper's New Discovery, and I bought two bottles of it. It helped me right away. Now I have a good appetite and never suffer from indigestion. I sleep well and awake refreshed. I want to thank you from the bottom of my heart for what this medicine has done for me."

The Cooper medicines have a larger sale than any medicine on the market. Our customers speak highly of them.

A LASTING EFFECT.

This Evidence Should Prove Every
Claim Made for Doan's Kidney
Pills in Maysville.

Relief from the pains and aches of a bad back is always welcome to every backache sufferer; but to cure a lame, weak or aching back is what's wanted. Cure it so it will stay cured. It can be done. Here's the strongest evidence to prove it:

C. L. Hubbard, employed in Cablish's grocery, Cox Building, and living at 325 West Third street, Maysville, Ky., says:

"As I stated in a testimonial given in 1900, Doan's Kidney Pills brought me positive relief from inflammation of the bladder and a disturbed action of the kidneys. After some time I felt a slight return of the trouble but again used Doan's Kidney Pills and found complete relief. Now, after nearly five years I feel able to recommend Doan's Kidney Pills with even greater confidence than before. The results of its use in my case have been very satisfactory."

For sale by all dealers. Price 50 cents a box; Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.
